

Visions and Voices and the USC Libraries have collaborated to create a series of resource guides that allow you to build on your experiences at many Visions and Voices events. Explore the resources listed below and continue your journey of inquiry and discovery!

# Professionalism, Electronic Records and the Physician-Patient Relationship

## A Lecture by **Howard Brody, MD**

### USC LIBRARIES RESOURCE GUIDE

As part of the **MEDICAL HUMANITIES** series of events organized by **PAMELA SCHAFF** and **ERIN QUINN** of **KECK SCHOOL OF MEDICINE OF USC** and **HILARY SCHOR** of **USC COLLEGE** and **USC LAW**, **VISIONS AND VOICES** presents a lecture by **HOWARD BRODY, MD**, entitled *Professionalism, Electronic Records and the Physician-Patient Relationship*. To help you learn more about bioethics, privacy issues, electronic medical records and other topics discussed by Brody, **ROSS SCIMECA** of the **USC LIBRARIES** has selected the following resources.

## Introduction

---

Electronic medical records (EMRs) have been a major concern for bioethicists and privacy advocates since they were introduced as a cost-efficient way of storing the medical histories of patients. Not only are there privacy issues related to sharing access to EMRs, there is also a potential for altering the doctor-patient relationship. As hospitals have moved toward electronic records, they have created unforeseen difficulties for physicians.
